

National organizations and voices from Minnesota's Fourth Congressional District speak out in support of health care reform...

I want to thank you for taking a stand on the health care debate and subsequent bill. As long as you are running for office, you will have my vote.

--Adam, St. Paul, Minnesota, March 26, 2010

Thank you for your courageous leadership for health insurance reform. We need this bill to pass to start the process of real reform. Great work Betty and staffers!!

-Ann, St. Paul, Minnesota, March 18, 2010

One out of every two Minnesotans will likely be diagnosed with a potentially serious cancer in their lifetime. Cancer patients experience most aspects of our broken health care system. The legislation you helped lead to passage will specifically eliminate discrimination based on health stats and pre-existing conditions, and abolish arbitrary limits on annual and lifetime benefits, which have been so detrimental to cancer patients over the years.

--**American Cancer Society** - Minnesota, March 22, 2010

Reforming our health care system has been a goal that has eluded several administrations and generations of Americans. It is critically important to our well-being as a nation that this reform not be delayed any longer. The health care legislation package before you today is a vital and historic step that the [American Federation of Teachers] and its more than 1.4 million members support.

--**American Federation of Teachers**, March 21, 2010

Thank you for your vote. In times of screaming crowds and special interest group pressure, you stayed true.

--Arlene, West St. Paul, Minnesota, March 22, 2010

In my opinion, our nation owes a debt of thanks to dedicated public servants like you. Please accept one person's thanks for doing what's right.

--Deb, Falcon Heights, Minnesota, March 27, 2010

While no one can agree with their representatives 100% of the time, I believe you do a remarkable job representing our district.

--Laura, St. Paul, Minnesota, March 31, 2010

...know that the majority of us are behind you and so grateful that you voted YES on health care reform.

--LeAnn, St. Paul, Minnesota, March 26, 2010

As President Obama has said, the time for debating is behind us. What is needed now is the political and moral courage to act on behalf of the most vulnerable members of our society -- those who are uninsured.

--**National Council of Churches of Christ in the USA**, March 15, 2010

I know you're getting a lot of mail right now about [the vote on health care reform]. However, I just wanted to once more weigh in on the side of gratitude for what you've done for us...Please remember that no matter what, you have done what we sent you to Washington to do, and we're so proud and thankful.

--Rebecca, St. Paul, Minnesota, March 25, 2010

I want to let you know that I deeply appreciate your vote in favor of expanding health care to more Americans. You have made me feel safer and more secure about my future and the future of my country.

--Ruby, St. Paul, Minnesota, March 25, 2010

You have our strongest support in this difficult time when [you have received] threats from some bad people...We believe you are absolutely correct.

--Terry, St. Paul, Minnesota, March 25, 2010
